## 01 | Training center inaugurated at IBA headquarters

In september 2011 the IBA Academy training center was inaugurated at the headquarters in Louvain-la-Neuve, Belgium. As well-trained people will maximize the potential of your PET center, the IBA Academy offers a comprehensive training program for site management, cyclotron operation, quality control, radiopharmaceutical production, quality assurance as well as research and development.

## 02 | IntegraLab® extends its offering

IntegraLab® has been offering equipment and services to establish your new research or radiopharmaceutical production center whilst achieving full regulatory compliance for many years.

Today, IBA extends its services to existing PET

centers while offering among other GMP expertise, a full training program, support for qualification and validation, documentation templates and many other services.

Radiopharmacy regulations can appear to be a complex maze however, IntegraLab® will help you find your way and your center will soon yield amazing results.

## 03 | Huge renovation of IBA's american distribution network

IBA is proud to announce the successful transformation of its american network. Eleven commercial facilities have been upgraded in order to comply with the food and drug administration regulations.

IBA completed the SOP implementation, training, facility renovations, equipment qualification and validation along with the transition operations to the new equipment and processes.

Once again the IntegraLab® team has proven its expertise in radiopharmacy facilities.

## 04 | comprehensive R&D radiopharmacy facility in Brisbane

IBA signed a contract for the installation of a comprehensive research & development radiopharmacy facility at the University of Queensland in Brisbane / Australia, providing together with its famous Cyclone® 18 state of the art  $^{18}\text{F}$ ,  $^{11}\text{C}$ ,  $^{64}\text{Cu}$  and  $^{124}\text{I}$  targetry and automated radio-chemistry equipment.

## 05 | Successful installation of a self-shielded Cyclone® 11 in Beijing

IBA successfully completed the installation of its self-shielded Cyclone® 11 at HTA in Tianjin / China after completing the extensive cyclotron and Synthera® radio-chemistry acceptance tests according to customer requirements.

## 06 | Full speed ahead

Eleven IBA cyclotrons have been installed and accepted in 2011 around the world in Leipzig, Toronto, Antalya, Malatya, Santiago, Mie-Ken, Kuala Lumpur, Louvain-la-Neuve, Beijing and Ryadh.

Delivering products and services on time & on budget is IBA's priority therefore allowing our customer to start their radioisotope production. This guarantees our customers the best return on investment.

## 07 | Industry meetings

Meet us and discover the IntegraLab® solution at the following industry events:

- ▶ **Arab Health**, Dubai, UAE.  
Jan 23-26 2012. Visit IBA booth #S1D50.
- ▶ **China MED**, Beijing, CN.  
Mar 23<sup>rd</sup>-25<sup>th</sup> 2012. Visit IBA booth.

## 08 | IBA Cyclone® and Synthera® user meeting

IBA's 8<sup>th</sup> PET Cyclone® and 2<sup>nd</sup> Synthera® User Meeting was held in Coimbra, Portugal in October 2011 with more than 120 participants from over 30 countries.

Together we shared thoughts on cyclotrons, targetry and chemistry initiatives. In a very interactive forum, IBA shown its support to customer's PET radiopharmacies. 21 workshops and 20 presentations took place during the 3 days. Customers were pleased by the progress made over the two last years by IBA.

*“ It was a great opportunity for me to know IBA people and other IBA users and shared our experience and got several suggestions. ”*

Stephanie Sjah  
MRCCC Siloam Hospitals, Indonesia

*“ Very interesting and professional conference. I am waiting for the next user meeting...”*

Kobi Ben Meir  
Herzzentrum, Germany

### IBA CONTACTS

ISSUE 10 WINTER 2011

#### IBA Molecular

Chemin du cyclotron, 3  
1348 Louvain-la-Neuve  
Belgium
